

Pepin Manufacturing Inc.

Are you looking for a contract manufacturer that can accommodate your specific needs? Does your product require highly specialized equipment that is capable of tight tolerances? You deserve quality products from a manufacturing partner that can assist you every step of the way.

Pepin Manufacturing Inc. (PMI) is a full-service contract manufacturer providing custom converting and fabrication services to many industries for the last 25+ years. PMI specializes in contract manufacturing of disposable products personalized to each customer's specifications. PMI can provide three diverse product lines, in addition to our manufacturing solutions below.

Product Lines

Advantrode™ Electrotherapy Electrodes

USA-made high-performance electrotherapy electrodes that offer:

- 100% Uniform Current Dispersion
- Improved Reusability
- Ultra-low Impedance
- Competitive Pricing

Lint Busters™ & Hair Busters™ Lint Rollers

Lint rollers made with extra tacky adhesive tape for maximum pickup and lasting power.

- Available in multiple sizes/sheets per roll
- Great for picking up lint, pet hair, or any unwanted particulate
- Works on all types of clothing, furniture, car seats, or floors

MarFree!™ Urethane

Urethane film used for:

- Protection for dies and raw materials in the metal fabrication industry
- Used in press brake equipment to prevent die marks and scratches caused when bending polished metals.

Converting and Fabrication

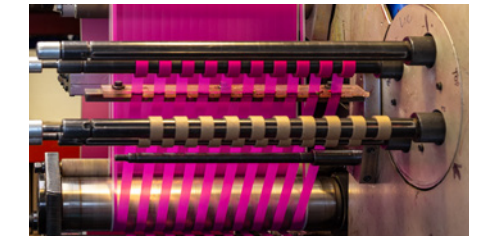

Precision Rotary Die-Cutting

- State-of-the-art servo technology
- Ultra tight diecutting tolerances
- Closed Loop CCD Cameras
- Kiss Cutting, Island Placement, Perforating, Scoring
- One of the largest presses in North America-16 station, 13" wide

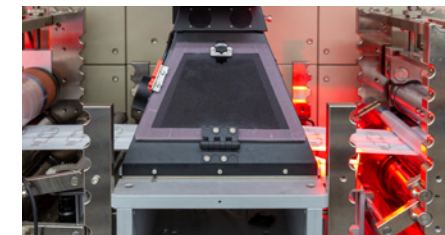

Flexographic Printing

- Rotary Flexo Printing-4 color
- Solvent & Water-Based Inks
- Online Printing & Die Cutting
- Logo Printing/Custom Artwork
- Access to Specialty Inks
- Flood Coating

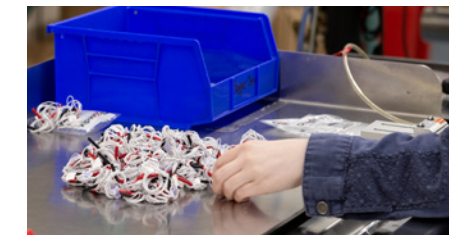

Precision Slitting

- Handle up to 60" wide materials – slit down to .125"
- Rotary, Razor
- Rewinding on 1" or 3" cores
- Auto Tabbing Capabilities
- High Output slitting/rewinding with turret systems

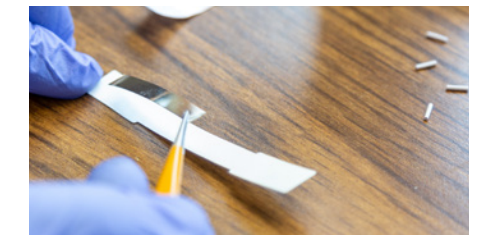

Prototyping and Product Development

- Small Run Prototyping
 - Clicker Press
 - CO2 Laser Die cutter
- Raw Material Sourcing & Sampling

Contract Packaging and Assembly

- Full-service contract packaging, kitting, and packaging assembly services
- Applies to bulk packaging of piece parts and complete retail box packaging

Custom Electrodes/Sensors

- 28+ Years of Experience
- Stimulating & Monitoring
- Specialty Hydrogels (Conductive/High Water Content/E-Beam Cured)
- Snap, Lead wire or Custom Connector
- In-line Rotary Snapping
- Integration of Flex Circuits/PCB

Stick-to-skin Applications

- Various medical consumables that adhere to the skin.
- Sourcing of medical-grade adhesives for long term wear, low trauma removal or high initial tack.
